## About This Game

Demolition Company Gold Edition: the complete Demolition Company experience!

Includes Demolition Company, the DLC Kit Pack PLUS brand new equipment, new missions and a HUGE new city district 4 times bigger than the old Demolition Company districts! In a city where buildings are constructed as rapidly as they are torn down again, you get to take control of a demolition company which is growing bigger and going places. Lots of challenging missions lead you to various demolition sites in different districts of the city, where you can use your special vehicles and equipment to demolish buildings, complete missions and earn cash.

Take a seat at the controls of a variety of authentic and detailed construction and demolition machines. Bring old buildings to the ground with wrecking balls and excavators. Tear down walls manually with the jackhammer, or place explosive charges, hit the button and watch the rubble and dust clouds fly! Use the wheel loader to transport rubble to the debris crusher where it gets pulverized. You can invest your hard-earned money in new vehicles which in turn unlock new assignments in the city and tutorials in your company's practice area.

Why don't you demolish something today?

## Includes

- 
- Large fleet of construction and demolition machines, including all machines from the original Demolition Company and the DLC Kit Pack PLUS additional new vehicles and equipment.
  - Over 30 missions, including 6 NEW missions, in different parts of the city (financial district, port, factory area, shunting station, old town, suburbs PLUS HUGE new airport district).
  - Exercise area with vehicle-specific tutorial missions.
  - Explosions.
  - Play with Keyboard, Mouse, Gamepad or Joystick.
  - Gamepad support with authentic Euro-controls and support for multiple Joysticks simultaneously.
  - Includes Mod SDK (contains Editor, Exporters and Sample Mods).

Short game, cute and all the better because it's free. Not sure what people are complaining about with checkpoints, the levels are brief enough that making a mistake doesn't set you back too far. Don't expect to spend days reaching the end, but do expect to enjoy the delight that is the life of a water drop.. Blambox has the charm of vintage games such as Pong, Galaxian and Asteroid that only require you to beat the current high score. The UI, sound, and the art style of the game has a modern, minimalistic feel which, while superb, doesn't distract you from the game's simple but engaging (and most of the time panic-inducing) core mechanic.. Deep inside the jungle, in the shadow of the war

There rises a sinister evil

The people live in fear, under a tyrant's reign of terror

Who will save us now?

From out of the darkness and into the fight

Broforce is coming to set things to right

Broforce!

Kicking\u2665\u2665\u2665\u2665\u2665for justice and for liberty

For freedom and the flag

They're the final stand

The last band of heroes

Who'll fight terror with no remorse...

Broforce

For Freedom!

Broforce!

For the flag!

Broforce!

For liberty and justice for all!

Satan's forces are amassing

But they'll never take our freedom

We call on the defenders; on the red, white, blue avengers

To liberty or death

On wings of iron eagles, Broforce brings the rain

A whirlwind of blood, sweat, and bullets

Terrorists will pay for the blood they have shed

Cos Broforce is coming to fill them with lead

Broforce!

Kicking\u2665\u2665\u2665\u2665\u2665for justice and for liberty

For freedom and the flag

They're the final stand

The last band of heroes

Who'll fight terror with no remorse...

Broforce

For Freedom!

Broforce!

For the flag!

---

Broforce!  
For liberty and justice for all!  
In the darkest hour  
In the eye of the storm  
We stand together  
An unbreakable force of bros!

55 brani per scordare le tue origini e diventare americano!

Liriche prese da: <https://www.musixmatch.com/Vit/testo/Strident-3/Broforce-Theme-Song>. This game has a huge potential. However, every new game they release is just a worse copy of the older one. I bought it for new updates etc. hoping that the game could be playable now, but no... economy, relations, ai pathing issues are just too bad for a grand strategy game, and those problems aren't new. Also lack of events, new features etc. is just not possible to accept. After all these years, they just should have made much more than this broken game. I really wish that they will fix all the issues and add new things to it later, though I don't have any hopes now.. Comit the Astrodian 2 is reminiscent of Sonic the Hedgehog.

You are a little brown ball who likes to run around collecting yellow stars, with an occasional red star thrown in for a bit of variety.

There is some Sonic-style music that constantly plays in the background (I'm pretty sure that the guards play this music for hours on end to prisoners at Guantanamo Bay, as a form of inhumane torture).

The game is designed for a controller, although it can be played with a keyboard as well. However, at this stage, the keys cannot be changed.

If you liked playing Sonic the Hedgehog, then this might be a good game for you. But I just found it annoying and boring. I'm guessing that this is not my type of game.. my horse was sick

but its condition is stable. It tried giving the vibes of tower Unite (Gmod towers)

still it's not done yet  
give it time because it is still a f2p game

---

The game is average, but the music is awesome. I would find myself losing levels on purpose to listen to the running out of time music, and the terrible rap sung by the final boss had me laughing for a while.

Worth buying just to strip the audio out and put onto your ipod. The best game you can get for \$2! I just finished the game, and I loved the thrills. I was on the edge of my seat -Or should I say running away- End makes me think there'll be a sequel CANT WAIT!!!. So I may be a touch biased after realizing a friend of mine voice acted ♥♥♥♥♥ Mom but that aside...

It's a pretty short and to the point VN. It wasn't overdone and didn't over stay its welcome. I would've liked a touch more scenes but I'm no necessarily complaining. All and all, it was very good.

PoopFace and PeePeeHead... Together forever!. Review Mini Battlegrounds

Mini Battlegrounds ist im grunde gesagt PUBG in der Vogelperspektive und in einem Cartoon Stil gemacht.

Das Spiel macht viel Spaß, jedoch braucht das Spiel mehr Spieler damit das Spiel nicht so lange zum Lobby suchen braucht.

Ich kann dieses Spiel einfach nur empfehlen !!! Very mediocre, Choices don't mean much, and what ending you get is simply determined by choosing which student you want at the end of the game. The character's aren't particularly compelling, the story premise is weak, and god knows why one of the students is studying under a master painter to become a manga artist.. Current WR holder for any% here. Intrusion Protocol is a wonderful sit-down platformer experience with exquisite controls. Every death I've had, whether it was during my blind playthrough or in my record run, felt like it was my fault - a trolltastic feeling that most platformers in this same vein get wrong. The game's on the short side, but it was absolutely built with speedrunning in mind, and I plan the time as far down as I can.. It looked to be an interesting game, where you play as an authoritative figure weeding out dissidents and quashing rebellion in your dystopian country...but

Holy does this game still need work! In some places, the English is laughable at best, and on top of that the game does not make it clear what you're supposed to be doing, or how to go about doing it. As it is now, just skip it and play "Papers, Please".

For more reviews, as well as Let's Plays, check out my YouTube channel, Gemini Does Games!

<https://youtu.be/VasnQU5HIG4I>. really fun game
